

Photopotography: Work Smart

Use Camera Raw, Smart Objects (and More) to get more done in less time and create images you love!

with Dave Cross, hosted by the RA Photo Club

November 17, 6:30 - 10 pm

RA Photo Club members: \$43.37 + HST. Non-members: \$49.95 + HST

In this 3.5 hour seminar, Dave Cross will demonstrate a workflow (or as he calls it, a "Smartflow") that will show you how to take full advantage of your camera and Photoshop together to create wonderful images. Learn ways to embrace Photoshop as a creative tool, not just as a means for "fixing" photos. This will include:

- Using Adobe Camera Raw and Camera Raw Smart Objects to edit and combine images
- Pre visualizing Photoshop when you take your photos
- Planning ahead to make better composite images, and how to composite images together
- Shooting on white backgrounds, gray backgrounds and green screen
- Ways to effectively replace skies, add textures and more
- Using Adjustment Layers and Masks
- Taking full advantage of Smart Objects
- Using Photoshop's built-in automated features
- New CS5 features such as Content Aware Fill...and more

Dave will show lots of real-world examples and will leave plenty of time to address your questions.
